Doc,
I got your message. The rifle is on its way back to Bozeman. When it gets here I will forward it back to Crocket. Thank you so much for being willing to give me such a great price. I only wanted the rifle to be there for folks to try while in camp. In that regard it's been a success as we have sent several folks to optics planet to buy a scope. Hope you guys are doing well and look forward to catching up next week.

Jeff,

I hope your ankle is feeling better.

Your group never responded to my email about returning the roughly \$35,000 worth of Stealth Vision inventory.

Before I reach back out with another email, please answer these 2 questions:

(1) are you currently under a non compete clause with Herman?

(2) does the guide/owner that you gave my rifle to, still have that rifle and under the impression that it is his by gift?

Thanks

Doc

Jeff,
We had a successful DSC with north of \$170,000 in sales. Our new custom booth was a hit.
We will be leaving tomorrow for Reno & Sheep Show.
We never received anything back from Nick.
I'm bringing an empty case to take possession of the 6.5 PRC that was loaned out 6 months ago.
What is the name of the outfitter that will be bringing our rifle?

Looking forward to having discussions with you this week.

Yea, Glens father died.

I have them sending it down with a mutual friend. If it's causing you heartburn I will pay for it.

3). I am uncertain what we have but I will see the fellas for the first time in a few weeks on Monday and we will get your things gathered up and returned asap. We are not trying to steal anything Incan assure you.

Question: are you still under the same mindset that you don't want to steal from me?

I sent you the invoice as we agreed upon & have heard nothing.

I'm going to be at Western Expo if you feel we need to discuss this in person,
